FOREWORD

1.

Congratulations to all athletes for having qualified for the National Individual Championships. You cannot all be winners today, but you can proudly wear your participation badge in the knowledge that you have reached the finals.

I am sure that you will wish me to thank all the people who have worked in the regions to make it possible for you to be here today, and to thank all the people who have worked today to make this a triumphant end to all your hard work.

I hope that participants, spectators, leaders, officers, and committee will join in not only the achievements but the goodwill and comradeship spirit of our sport.

GOOD LUCK TO YOU ALL

BBTSA QUALIFYING ROUND RATING SYSTEM

3

1. Rating is the general categorising according to value.
2. This rating system is used to qualify competitors at the National Level of competition. Upon completion of the performance, the judges flashes her/his rating of performance.
3. The following ratings and sample descriptions are representative of the basis of common ratings you see flashed at a competition. There are infinite variations which may justifiably cause a judge to use a rating that is not described below.

RATING: SAMPLE DESCRIPTIONS

CHAMPIONSHIP CATEGORY

A+ (10) Top Notch Championship Category. Superior overall technique of baton and body, championship level material, absence of penalties.

CHAMPIONSHIP CATEGORY

A (9) Excellent overall technique of baton and body, advanced material, few penalties

ADVANCED CATEGORY

Some facts about this rating system: First of all it is just that a rating system. It is a general categorising specific according to value. It is not a system for determining specific placement. The A+ (10) rating is used to describe a very high calibre performance. It indicates the general level of performance of those athletes. It does not represent a perfect routine. There are varying degrees of excellence within A+(10) rating. There are specific A+ (10) rating that are not reflected within the A+(10) rating based on a national standard. The A+ (10) rating is used to exemplify a general level. The same fundamental principles apply to all the rating in this system. Suggestion: In preparation for the competition experience, it is beneficial for the athlete, parent, coach, to read and discuss the above ratings and descriptions. Then have the athlete rate her/himself based on a national scale. Realistic expectations of the range a rating will appear in, can assist the athlete to relax and perform at her/his best.

This rating system will be used when there are twenty five or more athletes in a division. This system will be followed by a final round. The top **TEN** from the qualifying round will proceed to the final round. Ratings are flashed to the athlete and audience immediately following the performance. Ties for 10th position will advance to the final round. Two judges are to be used for all qualifying round competition, three judges in final round (Exception region and areas). The rating system will be optional for regions and areas but effective for National Individual 1986
